Unlock the Future of Animal Care with the N Vet Series.

Versatility Redefined

Embrace a new era of design with the N Vet Series, featuring a sleek and modern look. The N10 model stands out with its DC charging interface and AC charging interface, catering to diverse needs both within and outside the clinic. Experience unmatched adaptability, ensuring seamless monitoring wherever your patients may be.

Intuitive Interface, Unmatched Clarity

Navigate with ease through our cutting-edge UI and capacitive touchscreen. The N Vet Series sets a new standard in responsiveness, ensuring that your monitoring experience is not only seamless but also visually striking. The crystal-clear display provides instant insights, empowering you to make informed decisions swiftly.

Sensitivity — Clarity — Ease of Use Redefined

Tailored Algorithms for Animal Wellness

Care crafted for our animal companions. N Vet Series incorporates Comen's specialized NIBP and SpO2 algorithms, ensuring accurate and reliable readings. Choose from a variety of technology options, including Suntech, Nellcor, and Masimo, to personalize your monitoring approach. Elevate the standard of care and give your patients the attention they deserve.

NIBP

Specially crafted for animals, our advanced algorithm has undergone rigorous clinical testing. Experience swift and precise measurement results, ensuring accurate monitoring tailored to the physiology of your patients.

SpO_2

Unrivaled performance in low perfusion and motion-prone scenarios, guaranteeing the utmost accuracy in measurements.

ECG

Support for multi-lead analysis and intelligent lead disconnection monitoring, ensuring stability in measurements.

In addition to supporting basic physiological parameters, the N Series monitor can be equipped with advanced parameters such as **EtCO2, AG, and IBP,** allowing for a more comprehensive monitoring of animal physiology.
